PROFESSIONAL DA POLISHER

MT300

MT300 DA POLISHER

Wide 3000 – 7500 OPM speed range for maximum control

8mm throw optimized for compounding, polishing and waxing on both large surfaces & in tighter contours

Digital Torque Management ensures proper torque to maintain pad speed under load

Tool Product Code: MT300

MT300 - 05

HISTORY

SHOW CAR PAINT IN 5 STEPS

What began over a century ago as a simple furniture polish laboratory in the garage of founder Frank Meguiar Jr., has spanned four generations of the Meguiar family. In his wildest dreams, it's doubtful that Frank Meguiar, Jr., could have foreseen what his first bottle of furniture polish in 1901 would evolve into over the next 100+ years.

Meguiar's®, Inc. has become the global leader in appearance care and is proud to offer our next generation of products, tools and accessories to serious car enthusiasts. We strive to set an

entirely new standard for quality and performance in the industry.

From his first bottle of furniture polish, Frank Meguiar, Jr. built his business on excellent products and an understanding of his consumer's needs. Today, Meguiar's enduring and strong relationship with serious car enthusiasts worldwide has created a level of trust and respect for the brand that transcends our products and embodies the lifestyle of the car hobby. To this day, Meguiar's is committed to delivering products and building relationships that excite and unite car enthusiasts and professionals worldwide.

1 WASH

Wash your car using water and a specially formulated car wash and conditioner. Dishwashing soaps & detergents strip your car's wax and can dry your paint out leading to a loss of gloss and shine. All Meguiar's washes are also environmentally safe.

2 CLEAN/PREP

Check for & remove above surface contaminants like tree sap mist with Smooth Surface™ Clay Kit before checking for below-surface defects. The most effective way to remove below surface paint problems like oxidation, fine scratches and swirls is to use a non-abrasive, clear-coat safe paint cleaner like Meguiar's® Ultimate Compound.

3 POLISH (optional)

Polishing is recommended as an optional step, especially for dark-colored cars, prior to waxing to help create the ultimate in high gloss.

4 WAX/PROTECT

To protect and add a brilliant shine to your paint's surface, use only premium car wax products like Meguiar's® Ultimate Wax.

5 MAINTAIN

Regular maintenance removes above surface contaminants like bird droppings or tree sap before they have time to bond or etch into your paint finish. Meguiar's® Quik Detailer® or Ultimate Quik Detailer® dramatically extends the durability of your wax protection & safely removes dust and grime between washes .

Over the years, we receive car care questions that come up time and time again, so we thought we'd share them with you, since you are probably wondering the same things, too...

WHAT'S YOUR BEST WAX?

What's best for you may be different from the next car guy. What's most important to you?

Speed? Ultimate Quik Wax® spray is the hot ticket for a fast coat of wax

Long-lasting water beading in a hi-tech synthetic? Meguiar's® Ultimate Wax is "best"

Do you prefer a natural carnauba wax? You'll love our Gold Class™ Carnauba Plus wax with premium carnauba. Cost/value/time-saving? Then it's the tried-&-true, all in one action of our classic Cleaner Wax

WHAT'S THE BEST PRODUCT TO USE ON MY NEW CAR?

All of Meguiar's products are safe to use on your new car, but brand new cars are unique in that the paint should be in excellent condition. If you adopt just a few routine maintenance procedures, you can keep your car looking showroom new for a long, long time. As Barry Meguiar often says, "Frequent car care is EASY car care!"

Follow the 5 steps to paint care, using products designed for automotive care.

- Wash your car weekly, using a quality microfiber wash mitt and premium car wash/shampoo
- Apply a high quality automotive wax 3-4 times a year
- Maintain your car in-between washes by using a mist and wipe Quik Detailer® to remove dust & contaminants
- Clay your car as needed
- Protect your interior and exterior trim and tires with quality protectant and tire dressing.

ARE YOUR PRODUCTS "CLEAR COAT SAFE"?

All of Meguiar's products have been formulated to work safely on clear coats. Meguiar's has a long-standing history and relationships with vehicle and paint manufacturers, ensuring our products are compatible with the latest technological advancements in vehicle surface coatings (or "paint").

HOW DO I GET RID OF SWIRL MARKS AND SCRATCHES?

It depends on the severity and extent of the blemish. First, if you can catch your fingernail in the scratch, you will need professional help to correct it as it's very deep. Otherwise, we recommend the following (Note that ALL of these products are clear coat safe):

For very light scratches and swirls (those fine circular lines that ring a light source reflected in your paint), Ultimate Polish is the answer and may be applied by hand, orbital buffer or dual action polisher (DA polisher). For hand application only, Meguiar's® Clear Coat Safe Polishing Compound may also be used.

For heavier scratches, oxidation, or just generally neglected paint, Ultimate Compound is the perfect choice. It too can be safely applied by hand, orbital buffer or with a DA polisher. For hand application only, Meguiar's® Clear Coat Safe Rubbing Compound can also be used.

If you have an isolated scratch, fingernail mark or light scuff, ScratchX™ 2.0 will safely provide the muscle to remove it.

WHAT'S A "DUAL ACTION" (OR DA) POLISHER, AND WHY SHOULD I USE ONE? AREN'T THEY ONLY FOR "THE PRO'S"?!

While most professional detailers use a DA polisher, they are definitely not restricted to "Pro" use only. Overall, the DA polisher will produce better results, faster. Meguiar's® DA Power System & MT300 DA Polisher have

FREQUENTLY ASKED QUESTIONS

been designed, along with our pads for both do it yourself & professional use. These fantastic machines makes paint correction (with either Ultimate Polish or Ultimate Compound) a breeze, and you can also apply a coat of your favorite wax in virtually no time. But the best thing about a Meguiar's® DA Polisher is that it is completely safe to use and will not damage or "burn through" your paint or leave swirl marks like a rotary can (if not used correctly). For those reasons, a rotary polisher should only be used by someone qualified & properly trained.

HOW DO I REMOVE WATER SPOTS?

The obvious answer is to prevent getting water spots in the first place by keeping your vehicle waxed and maintained, as well as washing and drying the vehicle in the shade and when the surface is cool. For those times where you do get that nasty, water spot surprise, we recommend Ultimate Compound, after you've washed your car (of course!)

HOW LONG DOES YOUR WAX LAST?

There is no standard answer regarding this as there are many variables that affect wax durability: Type & condition of paint, local environment, exposure duration, quality & type of wax & its application, quality of car wash, your personal tastes, preferences and expectations to name a few. Generally speaking, however, we recommend waxing your car every 3-4 months or when your finger "squeaks" on a freshly washed surface.

WHICH IS BETTER: SPRAY, LIQUID OR PASTE WAX?

It depends on your goal or expectation. Our Ultimate Quik Wax® spray wax, for example, delivers amazing results and you can wax your car in less than 15 minutes. However, spray waxes will need to be applied more frequently than paste & liquid waxes – every 3-4 weeks. Between paste and liquid waxes, it's really a matter of preference as both deliver long-lasting protection, gloss and shine.

HOW LONG DO I WAIT BEFORE REMOVING THE WAX AFTER IT'S APPLIED?

Always refer to the product label, because some waxes, like Ultimate, are different than traditional wax. Drying time for wax is dependent on temperature and humidity, so there's no set time. We employ a simple "swipe" test to determine if the wax is ready to remove. Simply swipe the tip of your finger (no, NOT the fingernail side!) over the waxed panel. If the swiped area is clean and clear with no smudging, the wax is ready to be removed. If you see smearing or streaking, wait a few more minutes and then try swiping again.

1-800-347-5700

*For free, expert
car care advice*

STEP 1 WASH

In automotive paint care, washing and cleaning are not the same. While they sound similar, they are vastly different procedures. Washing removes loose contaminants from your finish like dust, road grime, and fresh bird droppings. We'll cover cleaning in Step 2.

A common misconception is that dish washing detergent is safe to use as car wash. Absolutely not! Detergents are formulated to strip everything off of the surface, leaving it squeaky clean.

A squeaky paint finish tells you that it has no protection. With repeated use, dish washing detergents remove everything from your paint finish including waxes, silicones and polymers. Once this is accomplished, they then proceed to remove the life giving oils in your paint finish, actually accelerating the oxidation process.

All of Meguiar's car wash products are pH balanced and specifically formulated to enhance the appearance and protection of automotive paint finishes.

ULTIMATE WATERLESS WASH & WAX

No water? NO PROBLEM! Safely wash & wax your car anywhere, WITHOUT WATER!

More than a detailer, our water spot-free formula removes grime without scratching!

26oz Product code: G3626

ULTIMATE WASH & WAX

Meguiar's legendary wax protection... while you wash!

Clear coat safe carnauba & synthetic polymer technology in our most premium, conventional wash

48oz Product code: G17748

GOLD CLASS™ WASH SHAMPOO & CONDITIONER

Meguiar's premium formula that washes and conditions your paint.

Gently foams away dirt & grime

64oz Product code: G7164

DEEP CRYSTAL® CAR WASH

Meguiar's most popular wash!

Special sudsing ingredients safely remove dirt & grime

Will not strip wax protection like dishwashing detergents

64oz Product code: G10464

MICROFIBER WASH MITT

Meguiar's extra thick Microfiber Wash Mitt is the ultimate choice for show car perfect finishes. The clear coat safe microfiber lifts and traps dirt and grime for a brilliant, swirl-free finish. The comfort-fit cuff and soft inner lining make this wash mitt a pleasure to use

Product code: X3002

WATER MAGNET® DRYING TOWEL

Meguiar's ultra plush Water Magnet® reduces drying time with less wring-outs by absorbing up to two times the water of traditional terry towels. The extra large 22" x 30" waffle texture wrings out easily and leaves a spot-free finish

Product code: X2000

STEP 2 CLEAN / PREP

Cleaning, or Surface Preparation, removes stubborn, bonded above surface contaminants, as well as below-surface defects, like stains, blemishes and oxidation. After your car is washed, pass your fingertips over the surface. Do you feel roughness like micro speed bumps on your paint? If so, these are above-surface, bonded contaminants.

Generally, you'll notice this contamination on your car's horizontal surfaces, but you may also see small, dark spots/specks on the rear and lower surfaces of a light colored car. Over time, these contaminants will dull your paint and rob your car of its shine.

Fortunately, Meguiar's® Smooth Surface™ Clay Kit includes everything that you need to safely, and easily, remove bonded contaminants. And no, clay bars are NOT only for professional use. If you have ever played with Silly Putty, you can use clay.

ABOVE SURFACE CONTAMINANTS

Above-surface contaminants such as industrial fallout and tree sap can be detected by running your finger tips over the paint finish after washing and drying. Any "grittiness" felt can be removed using Meguiar's® Smooth Surface™ clay. Quik Detailer® is necessary to lubricate the surface whenever you clay your vehicle and can be used by itself to maintain your vehicle's appearance. Removes harmful contaminants before they damage your paint finish.

SMOOTH SURFACE™ CLAY KIT

Everything you need to create a smooth-as-glass surface

Makes waxing easier & longer lasting

Contains two 80g clay bars, 16oz. Quik Detailer® & Supreme Shine® Microfiber Towel

Kit Product code: G1016

QUIK DETAILER®

Meguiar's® Quik Detailer® is necessary to lubricate the surface whenever you clay your vehicle and can be used by itself to maintain your vehicle's appearance

Removes harmful contaminants before they damage your paint finish

16oz Product code: A3316

32oz Product code: A3332

18 - CLEAN / PREP

ULTIMATE COMPOUND

Clear coat safe formula quickly & easily restores color & clarity to abused & neglected finishes

Cuts fast, but will not scratch

Use by hand or with Dual Action (DA) Polisher

16oz Product code: G17216

CLEAR COAT SAFE RUBBING COMPOUND

Restore gloss & clarity to neglected, oxidized paint without scratching

Produces a clean surface without scratching like traditional tub products

16oz Product code: G18016

SCRATCHX™ 2.0

The safe solution for removing isolated paint blemishes!

Clear Coat safe!

Quickly removes fine scratches, fingernail marks, paint transfer & parking lot scuffs

7oz Product code: G10307

BELOW SURFACE DEFECTS

After removing bonded contaminants that you can feel, examine the finish from different angles and light sources to detect below-surface defects like oxidation (dullness), stains/blemishes and fine scratches.

Small below-surface imperfections such as oxidation, stains, small marks and scratches can be safely removed using Meguiar's® ScratchX™ 2.0 or Ultimate Compound, giving a flawless finish prior to polishing and waxing.

STEP 3 POLISH

Polishing is an optional step, and is different from waxing. While some modern-day marketers have caused confusion by naively misusing the terms, the definitions are clear. As in polishing a diamond, the sole purpose of polishing is to create brilliant high gloss. For car show enthusiasts who are obsessed with having perfectly clear reflections, Meguiar's® Ultimate Polish is the perfect choice. Others may be looking to remove the last hints of swirl marks while maximizing the gloss. In this case, a Cleaner/Polish like Meguiar's® Clear Coat Safe Polishing Compound is a good solution.

Waxing falls under the larger heading of protecting the paint finish, which we'll discuss in Step 4.

ULTIMATE POLISH

The final step before waxing for maximum gloss & reflectivity.

Rich polishing oils add a deep, rich wet look to paint

Eliminates fine swirls, perfecting the paint prior to waxing

16oz Product code: G19216

CLEAR COAT SAFE POLISHING COMPOUND

A cleaner/polish that restores clarity for a brilliant show car shine.

For hand application to restore brilliance to dull surfaces

Removes light scratches & hazing

16oz Product code: G18116

STEP 4

WAX / PROTECT

Waxing protects the paint finish from the elements by coating it with waxes, polymers, resins and silicones. In addition to protecting, wax can also “lock-in” the gloss to create brilliance, deepen/enrich dark colors and offer other benefits, such as water beading and light swirl removal depending on the formulation.

All of Meguiar’s waxes are clear coat safe, with choices available in paste, liquid or spray depending on your needs and preferences. Note that every car and car owner is different, as are the environments in which they live and how they are cared for. All of these variables affect how long a wax lasts. Generally speaking, we recommend waxing your car 3-4 times per year, but more frequent waxing is OK!

ULTIMATE WAX

Our longest lasting protection with amplified reflectivity

Our most advanced, pure synthetic hydrophobic wax

16oz Liquid Product code: G18216

11oz Paste Product code: G18211

ULTIMATE QUIK WAX

Wax your car in just 15 minutes, with protection that lasts weeks!

Revolutionary, synthetic, non-whitening formula produces amazing results in just minutes, even in sun

Spray on, wipe off, and then marvel at the shine!

11oz Paste Product code: A1214

QUIK WAX®

Shine As You Dry for amazing gloss
and darkness, even in full sun!
New formula won't whiten on
trim & can be applied in full sun
Use on either wet or dry surfaces
24oz Product code: A1624

STEP 5 MAINTAIN

Once a car is waxed, the best ongoing protection for your car's finish is regular attention, or maintaining the finish. Regardless of whether your car is parked or being driven, it's in a hostile environment.

Everything that flies, from a gnat to a 747, expels contaminants that are determined to bond to and then etch into your car's finish. Add to this acid rain, industrial fallout and those unavoidable UV rays (the No. 1 cause of paint degradation), and you can see how your car is constantly under attack. The more your car is exposed to the elements, and the harsher the environment is where you live, the more attention your paint finish will require.

Fortunately, Meguiar's has made it easy for you with our mist and wipe detailers. Meguiar's® Quik Detailer® and Ultimate Quik Detailer® allow you to safely and easily remove contaminants before they have time to bond to your paint finish. These products form the missing link between washing and waxing, allowing you to greatly extend the protective qualities of your car wax.

ULTIMATE QUIK DETAILER®

Our most sophisticated & technologically advanced detailer

Safely removes dust and surface contaminants in-between washing

Hydrophobic Polymer Technology darkens the finish, adding protection and water beading

22oz Product code: G14422

Meguiar's® Quik Detailer® maintains your vehicle's appearance & is necessary to lubricate the surface whenever you clay your vehicle

Removes harmful contaminants before they damage your paint finish

16oz Product code: A3316

32oz Product code: A3332

WHEELS & TIRES

After the vehicle itself and the exterior paint color, arguably the most important and defining features of a car is its wheel & tire package. What used to be limited to paint, chrome and aluminum has expanded into a variety of finishes from custom wheel manufacturers who are constantly driving advances in design and materials. Similarly, car makers have also added a diverse offering of wheels. Whether your ride's equipped with custom 3-piece forged rims, factory clear-coated silver alloys, or a trick set of chrome plated wires, Meguiar's® has developed the correct cleaners, polishes & Hot Rims™ Wheel Polisher polishing tool to make your wheels look their best.

But clean wheels with dull, dingy tires is just wrong, so Meguiar's® also offers Hot Shine™ & Endurance® tire dressings to make your tires look their best. And in addition to improving your tire's appearance, Meguiar's® tire dressings also protect your tires, helping to prevent browning & premature aging of the rubber.

HOT RIMS™ WHEEL & TIRE CLEANER

New formula now cleans wheels & tires, foaming away dirt & grime!

Moderately aggressive cleaners for use on all factory coated or painted wheels

24oz Product code: G9524

HOT RIMS™ ALUMINUM WHEEL CLEANER

Safely cleans uncoated, polished or anodized aluminum/ally wheels.

Xtreme Cling™ foam grabs the wheel's surface, dissolving dirt, grime & brake dust

24oz Product code: G14324

HOT RIMS™ CHROME WHEEL CLEANER

Hot Rims™ Chrome Wheel Cleaner removes grime, grit and brake dust from chrome.

Our Xtreme Cling™ foam leaves a brilliant "mirror-like" shine!

24oz Product code: G19124

ENDURANCE® TIRE GEL

The Original! Endurance Tire Gel has long been the enthusiast's choice.

Long-lasting shine remains for weeks, even through rain!

Controlled application with no overspray, runs or drips

16oz Product code: G7516

Our highest shine tire dressing in your choice of an easy-to-use aerosol or spray

Synthetic polymers bond to the tires for long lasting, attention grabbing shine

24oz Product code: G13124

15oz Product code: G13115

HOT RIMS™ WHEEL POLISHER

Use your drill with Meguiar's Hot Rims Wheel Polisher for a mirror-like shine!

Patented, ergonomic diamond design easily polishes all wheel faces and details.

Product code: G4400

ULTIMATE BLACK TIRE COATING

Extreme durability lasts for over a month!

Provides long-lasting shine that gives tires that deep, black-wet look without sling

8oz Product code: G16008

INTERIOR

Just because Meguiar's is best known for polishes and waxes, doesn't mean we forgot about the inside of your car. Meguiar's has developed an extensive line of products to clean, restore and protect the interior of your car.

Starting with Meguiar's® Quik Interior Detailer™ you can quickly and easily freshen up all the surfaces of your car, leaving behind a clean detailed look. To add shine and protection to your vinyl and rubber surfaces, Meguiar's line of Protectants will do the job. Meguiar's® Ultimate Protectant will keep your sensitive vinyl dash board looking like new with superior, long lasting, UV protection.

And for the very best in luxury, Meguiar's® leather cleaners and conditioners are #1 in the industry! Meguiar's® leather products are perfect to maintain the look & feel of your vehicles leather surfaces.

QUIK INTERIOR DETAILER™ SPRAY & WIPES

OTHER SURFACES

Detailing your vehicle always comes down to the finer details. Now that you've restored and protected your paint, what do you do with all the non-painted surfaces like vinyl, cladding, headlights and glass? Well, Meguiar's has you covered!

Meguiar's® Ultimate Black will bring back to life any faded and tired looking rubber, plastic or vinyl trim. This special formula will also last through rain storms and multiple washing, without leaving those ugly black streaks that run down the side of your car like other trim restoring products.

And have you noticed all those yellowed and hazy headlights on the road? Plastic Headlights take a lot of abuse, whether it's damaging UV rays, fine scratches or road grime, they also need attention. Meguiar's full line of headlight restoration products can restore even the most severely oxidized headlights; or prevent your new cars lenses from ever fading in the first place.

ULTIMATE BLACK SPONGES

Brings new life to all exterior plastic, vinyl & trim

Convenient ready-to-use sponges takes out the guess work

Make trim & plastic look like new

A photograph of a red classic car, likely a 1930s model, parked in a garage or workshop. The car's front grille and headlight are visible. In the background, there are various tools and equipment, including a large white container, a stack of tires, and a sign that says "CHEVROLET". The image is overlaid with a yellow banner at the top containing the word "ACCESSORIES" in large, bold, black letters.

ACCESSORIES

Have you ever heard the phrase, “the right tool for the right job”? At Meguiar’s®, our line of paint, wheel and interior products perform at their peak when used with high quality accessories. Microfiber towels are not all created equal and our Meguiar’s Supreme Shine™ Microfiber Towel is a cut above the rest, making polishing and waxing even that much more enjoyable.

Plus, if you are ready to move up from hand compounding, polishing and waxing, Meguiar’s offers you two choices for a professional grade, quality finish. With the Meguiar’s DA Power System or MT300 DA Polisher you will achieve flawless results that cannot be matched by hand and without the worry of marring the finish. From the first time users to professional detailers we guarantee you will love the results.

WATER MAGNET® DRYING TOWEL

Meguiar's ultra plush Water Magnet® reduces drying time with less wring-outs by absorbing up to two times the water of traditional terry towels. The extra large 22" x 30" waffle texture wrings out easily and leaves a spot-free finish

Product code: X2000

SUPREME SHINE™ MICROFIBER TOWELS

Meguiar's® Supreme Shine® is an incredibly plush microfiber towel for producing swirl free, mirror-like results. The thick, deep, dual-sided microfiber pile absorbs three times more than traditional terry towels providing faster wipe off with less efforts

3 Pack Product code: X2020

MICROFIBER WASH MITT

Meguiar's® extra thick Microfiber Wash Mitt is the ultimate choice for show car perfect finishes. The clear coat safe microfiber lifts and traps dirt and grime for a brilliant, swirl-free finish. The comfort-fit cuff and soft inner lining make this wash mitt a pleasure to use

Single Product code: X3002

EVEN COAT MICROFIBER PAD

Ultra plush microfiber

Great for applying compounds, polishes & waxes by hand

2-pack Product code: X3080

SOFT FOAM APPLICATOR PAD

Ensures smooth, swirl free application

Tight cell, ultra soft foam for applying waxes, protectants & tire dressings

2-pack Product code: X3070

MOTORCYCLE & MARINE

Meguiar's offers a comprehensive, high quality line of products designed just for Boats, RV's and Motorcycles. These products will give the same brilliant shine and long lasting protection that many enthusiasts have come to expect from Meguiar's line of car care products but are formulated for the special requirements of fiberglass and gelcoats and Motorcycle finishes.

MEGUIAR'S® MOTORCYCLE PRODUCT LINE

Utilizing proven technology formulated specifically for motorcycles, Meguiar's is proud to offer an assortment of fantastic surface care products that cover the major steps in the motorcycle detailing process to include Motorcycle EZ Clean Spray Wash, Liquid Wax, Mist-and-Wipe Detailer, Leather Cleaner/Conditioner, and All Metal polish. Whether you ride a sport bike or a cruiser, these products provide exceptional performance backed by Meguiar's industry-leading surface care technology and performance guarantee.

MEGUIAR'S® MARINE PRODUCT LINE

Meguiar's offers a comprehensive, high quality line of products designed just for Boats and RV's. These products will give the same brilliant shine and long lasting protection that many enthusiasts have come to expect from Meguiar's line of car care products but are formulated for the special requirements of fiberglass and gelcoats.

Serious Car Care For

CAR Crazy

People!

There are over 30 million people in the USA who are considered "car crazy". Cars are an exciting part of their life and that's why we wanted to be the first to create multi-media communication platforms that excite and unite Car Guys worldwide. In addition to sponsoring over 9,000 car hobby events a year in America and thousands more overseas, we have a state-of-the-art, global web site called carcrazycentral.com, with hundreds of hours of video content.

Additionally, there's Car Crazy TV on the VELOCITY Channel, Car Crazy radio that airs every weekend in over 90 markets and the car hobby's most important awards event... the Meguiar's Award which honors the Person of the Year for the Car Hobby in the United States and other countries globally.
